

HAVENING MENTORSHIP WITH ELENA KINDLER

I am so excited to work with you on your journey towards Havening certification! You have up to *one year* from the date of training to complete all the steps necessary for me to recommend that you are certified as a Havening Techniques® Practitioner (after that, you would need to retake the training). The Havening certification process includes a **total of 32 sessions (30 written + 2 video)**:

- 30 written case studies
 - Submit up to 3 case studies at a time **and review my feedback before starting your next Havening sessions and case studies.** This way, you can make necessary adjustments before a pattern starts that may be difficult to undo. Please email me with your case studies using the subject heading: [YOUR NAME]: CASE STUDY #__.
 - Submit at least 2 case studies for each of the techniques.
 - Submit 1 case study using self-Havening (on yourself).
 - Submit at least 1 case study where you work “content-free” (no narrative; only CASE)
 - You can work on the same person up to 3 different times.
 - Use the editable form that I give you to use (NOT the one in the resource library of the Havening.org website). Please submit your case study to me in a **word or google doc.**
 - I will provide you with 2 model case studies to guide you as to what I’m looking for.
 - **I strongly recommend that you try to complete the case study form immediately after the session ... and if that’s not possible, to at least take a few minutes to write down detailed notes that will help you remember the details for later in the day when you can write it up. Do not wait days to write up your case studies! Unless you have an amazing memory, it will be much more difficult, and you may end up “wasting” a good session and having to do much more work than you need to!**
 - While you can submit case studies on your own schedule, I suggest trying to submit at least 4-5 case studies each month so that you can get ongoing feedback that will help you hone your skills and/or confirm you are on the right track; if improvements need to be made, you want to know this early on, and certainly before you are half-way done with all your hard work and/or are running out of time!
 - It is useful for your learning to get a wide spectrum of feedback and suggestions. As such, I will review and provide feedback on case studies #1-15 and #26-30 and your facilitator mentor will review and provide feedback on case studies #16-25. You will receive detailed and timely feedback, typically by email, to facilitate your learning.
 - Once you have submitted 30 case studies that meet these criteria and are sufficiently detailed and skillful for me to accept, you will have completed this portion of the certification requirement.

- 2 recorded video sessions (NO case study write-up is required)
 - Have the “client” sign the video authorization form before you videotape the session. Please email me a copy of the signed authorization with each video recording you submit.
 - I prefer a video that is 30-60 minutes in length (if it is a little under or over, that’s OK).
 - If possible, please send me a zoom link I can review. **If you would like to submit a video by any other method, please talk to me FIRST to make sure I will be able to view it in the other format, so your work is not wasted!**

- The video needs to show both you and the client (gallery view) and have good audio quality (another reason why a zoom recording is ideal!).
 - Please conduct your first video session at around your 10th Havening session and again between your 20th-25th Havening sessions. **For each video session, please include a brief explanation of the Havening neuroscience, a demonstration of the Havening Touch, and a debrief.**
 - Only 1 video can be with a Havening student or practitioner.
 - *You do NOT also need to write up the video session on the case study form.*
 - If you like, you can do a Zoom session with me in lieu of a second video (so I can give you oral feedback as both mentor and client). Be brave and try it!
 - I will provide detailed feedback, typically by email, to facilitate your learning.
 - Once you have submitted 2 video recordings that meet these criteria and are sufficiently detailed and skillful for me to accept, you will have completed this portion of the certification requirement.
- Science Exam (online)
 - Most students worry a lot about this, but I can assure you that between the Primer, the training, and the PowerPoint, you will have all the information necessary to answer every question on the exam! And the exam is OPEN BOOK! You can have all your resources in front of you when you answer the questions. And, you have 3 attempts! So, try to relax. I recommend printing out the test first, reading it over once or twice, and then reading the Primer with the test on hand. You will be able to answer most of the questions this way.
 - I ***strongly recommend*** you try to complete the science exam when the learning is fresh, within two weeks of the training and once you're read the Primer (and reviewed the PowerPoint slides, if needed).
 - In our first group mentorship session, I will reserve plenty of time for any specific science questions you have so I'd encourage you to dig right in right away and jot down questions about anything that may be unclear. (See more about group mentorship sessions below.)
- Ethics Exam (separate \$150 fee) – only required in the United States
 - You will need to separately purchase and review the Midge Murphy written legal/ethics materials, complete the Ethics exam, and obtain your certificate of completion before you can become certified in the US. When you receive the written certificate, email it to me with the heading: [YOUR NAME] – ETHICS CERTIFICATE.
- Optional Group Mentorship Sessions online
 - I intend to host 4 online group mentorship sessions, approximately once per month for the first 4-5 months after the training (on a date/time that works best for most.) These are totally optional! I'm making myself available to support your learning and help you keep on track. Each group session runs 90 minutes – approximately 45-60 minutes for Q&A (and sometimes some new or clarifying material) and 30-45 minutes for hands-on practice with other students (which you can write up for a case study!!). You can ask any questions on any topic at any time. I will focus the 1st group session on questions about the Science exam, and will also review how to write up a case study

I'm here to support you on your certification journey, so if you're getting stuck or confused, or if there is something I need to be aware of, please don't hide! Reach out to me via email right away and don't wait.

By signing in the space provided below, you acknowledge: (1) that you have read and understood these current requirements for mentorship with Elena Kindler and for certification as a Havening Techniques Practitioner; (2) that it is within Elena Kindler's sole discretion as to whether you have demonstrated sufficient understanding, skill, knowledge, experience, and professionalism for her to recommend you for Havening certification; and (3) that Havening certification is not guaranteed.

I, _____, acknowledge that I have read, understand, and agree to the terms of this mentorship document in its entirety.
